

## DNA TEST RESULTS

ISAG institutional member no. 129553

### Testing requested by:

Mrs Kylie Willson  
PO Box 87  
Yungaburra QLD  
4884  
AUSTRALIA

**Report date:** 5 May 2022

### Dog Breeding Science

40 Boronia St  
Redfern NSW 2016  
AUSTRALIA

ABN: 65 117 439 586

### Dog details

**Name:** Imrie Creek Heron  
**Stud book ID:** 001731/4A  
**Microchip:** 941000022845789  
**Sire:** Allambie Gucci  
**Sire registration:** 001131/4AH  
**Dam:** Allambie RV Bingle  
**Dam registration:** 001095/4BH  
**Date of birth:** 20 July 2018  
**Sex:** Female  
**Colour:** Cho Tri Merle

### Analysis details

**Sample received:** 27 April 2022

**Analysis started:** 2 May 2022

**Analysis complete:** 4 May 2022

**Laboratory sample ID:** DBS22019846

### Pedigree

A DNA profile has not been requested.

### Appearance and health

Test	Genotype	Comments
* Cerebellar abiotrophy marker (LINGO3)	C C	Negative for the CA: LINGO3 marker
* Cerebellar abiotrophy marker (VMP1)	C C	Negative for the CA: VMP1 marker

\* These tests are marker tests. We classify a test as being a marker when it does not cause that trait, but is statistically associated with it. This means that in a minority of cases an animal can test negative but still have the trait, or conversely test positive but still lack the trait. Some tests are classified as markers because environmental triggers are required to make the trait apparent.
