

DNA TEST RESULTS

ISAG institutional member no. 129553

Testing requested by:

Mrs Kylie Willson
PO Box 87
Yungaburra QLD
4884
AUSTRALIA

Report date: 5 May 2022

Dog Breeding Science

40 Boronia St
Redfern NSW 2016
AUSTRALIA

ABN: 65 117 439 586

Dog details

Name: Allambie RV Bingle
Stud book ID: 001095/4BH
Microchip: TBC
Sire: Royalla Vale Roc
Sire registration: -
Dam: Allambie RV Binda
Dam registration: 001094/4AD
Date of birth: 20 July 0000
Sex: Female
Colour: Blue Merle

Analysis details

Sample received: 27 April 2022
Analysis started: 2 May 2022
Analysis complete: 4 May 2022
Laboratory sample ID: DBS22019847

Pedigree

A DNA profile has not been requested.

Appearance and health

Test	Genotype	Comments
* Cerebellar abiotrophy marker (LINGO3)	C C	Negative for the CA: LINGO3 marker
* Cerebellar abiotrophy marker (VMP1)	C C	Negative for the CA: VMP1 marker

* These tests are marker tests. We classify a test as being a marker when it does not cause that trait, but is statistically associated with it. This means that in a minority of cases an animal can test negative but still have the trait, or conversely test positive but still lack the trait. Some tests are classified as markers because environmental triggers are required to make the trait apparent.
